YOUR GUIDE FOR INCREASED SALES
AND BETTER PROFITS

The Leetonia Tool Company

INCORPORATED MAY, 1907

LEETONIA, OHIO, U. S. A.

High Grade Tools for the Hardware and Marine Trade

We issue a separate Catalog illustrating and describing a complete line of high grade Drills and Tools for use in and around Coal, Clay and Metal Mines. If you are interested it's yours for the asking.

SPECIAL FORGING, STAMPING AND MACHINE WORK GIVEN OUR PROMPT ATTENTION

Leetonia Forged Tools at the time of printing this Catalog conform to the industry's simplified practice recommendation as issued by the United States Department of Commerce.

GOOD WILL—Is the disposition of the customer to return to the place where he has been well served—"United States Supreme Court."

Ever keep in mind here at Leetonia it is our earnest desire to serve you to earn and retain your Good Will.

To Our Present and Prospective Customers

Your orders and interest have encouraged us to continue our efforts to serve you more efficiently and increase the quality and finish of our products, always keeping in mind our success also depends on our business relations being mutually pleasant and profitable.

Our catalog No. 947 shows additions to our line. If you are in doubt as to the merits of any tools we manufacture we will cheerfully submit samples for your examination.

We carry several sizes of cuts of items we show and will cheerfully furnish them free of charge to our customers.

All open hearth carbon steel is forging quality, rolled to our specifications and mill inspected before shipment.

All alloy steel is of excellent quality and for the purpose intended will give satisfactory service. The combination of alloys permits a wide temperature range which is a special factor when tools are redressed.

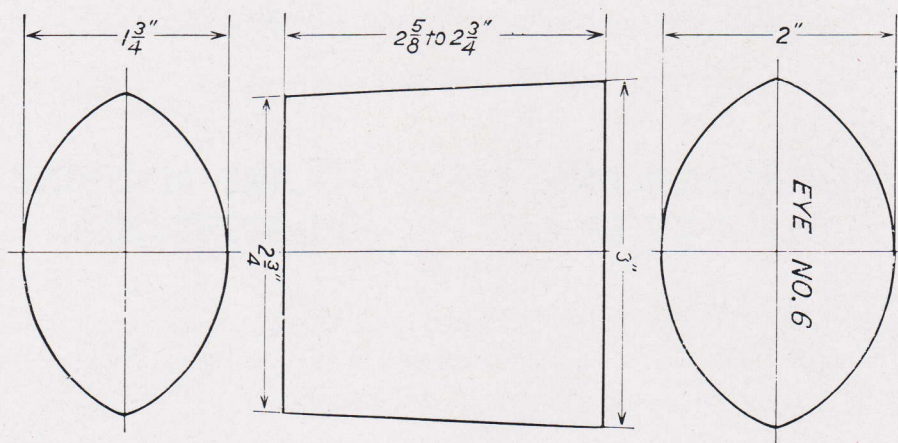

We are now prepared to furnish at special prices, tools painted almost any color or combination of colors.

We again repeat, we sincerely appreciate the favors extended us and we shall earnestly strive to serve you so as to merit an increasing share of your patronage. To others, we ask an opportunity to serve you.

Most cordially yours,

THE LEETONIA TOOL COMPANY

HANDLED TOOLS

Hammers under 5 lbs., 14 to 18" handles; 6 to 8 lbs. inclusive, 32" handles; 12 lbs. and over, 36" handles. Mattocks, Clay, Contractors and Railroad Picks, standard length handles but not inserted.

We do not advocate the distribution of above tools handled as it adds to dealers' inventory. Handles are apt to get crooked, require more storage space, add to packing costs and take higher freight rate. However, when requested, we will gladly quote handled prices either for regular trade or for government requirements. When asking for prices be sure to state length and grade according to Government Specifications.

The LEETONIA TOOL CO.

MINING OR POLL PICKS

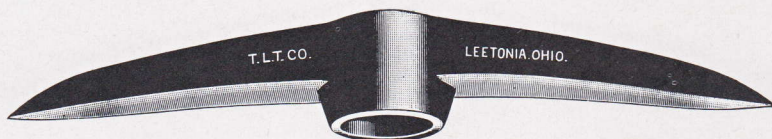

For use in lead or zinc mines. Carefully heat treated. Eye size $3\frac{1}{4}$ " x 1" x $\frac{3}{8}$ " Not carried in stock. Made promptly after receipt of order. Painted blue.

Ore Pick

When ordering kindly give quantity, weight and pattern name.

EARTH AUGERS

The No. 1 grade hickory handle is 18 inches long x 1 inch diameter. The 6 inch x $\frac{3}{4}$ inch round shank is securely welded to the auger and riveted into $\frac{3}{4}$ inch steel pipe. The auger is made of fine grain high carbon steel. Very useful for making holes for stump and other blasting, and fertilizing roots of trees and shrubbery.

Due to heating and twisting finished auger sizes are about $\frac{1}{8}$ " smaller than sizes given. When ordering, give number, length overall and diameter of auger. Wired 3 in a bundle. Any quantity sold. We can furnish other sizes.

No. 124 —54" overall, auger 12" x $1\frac{1}{2}$ " or $1\frac{3}{4}$ ", weight each..	10 lbs.
No. 125 —60" overall, auger 12" x $1\frac{1}{2}$ " or $1\frac{3}{4}$ ", weight each..	11 lbs.
No. 125S—72" overall, auger 12" x $1\frac{1}{2}$ " or $1\frac{3}{4}$ ", weight each..	13 lbs.

LEETONIA BRAND— The proven producer of profits and satisfied customers. Any Leetonia Brand stamped or labeled on an article of our manufacture is your assurance of highest quality material and workmanship. Our advertisements and the consumer demand, due to satisfactory service of our Tools, have made Leetonia Tools a profitable line for Jobber and Retailer to distribute.

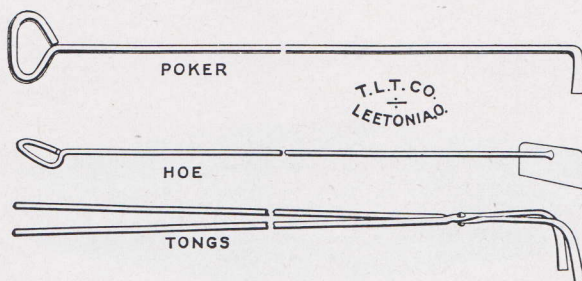

The LEETONIA TOOL CO.

LEETONIA FIRE SETS

We are equipped to make special sizes for furnace manufacturers in car load or less than car load lots.

Profitable articles for wholesalers of hardware, furnaces and plumbing goods. It's easy to remove clinkers with Leetonia Tongs. Increasing sales prove this statement.

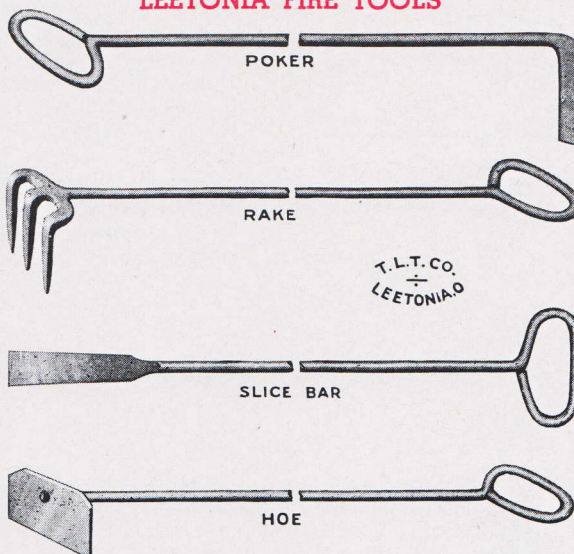

The Fire Set shown above is especially adapted for the home furnace. For practical firing results, design, durability, material and workmanship this set has no equal. With proper care they will last many years. The owner of a Leetonia Fire Set will save time, worry and fuel. We call your attention to the tongs. They are hinged in the proper place to allow wide opening of the lip ends without coming in contact with the sides of the opening. The long handles enable the user to stand back from the heat while removing clinkers. The handle and scraper end of the hoe are securely riveted together by powerful machinery, thus avoiding any chance of them getting loose. Poker when requested can be furnished with straight point at same price as bent end. Painted blue. Wired one set in a bundle. Separate tools wired six in a bundle. When packed in boxes an extra charge will be made.

Number	Description	Weight
383	Poker, size $\frac{5}{8}$ " x $4\frac{1}{2}$ ft.....	Each, $5\frac{1}{2}$ Lbs.
384	Hoe, size of round, $\frac{3}{8}$ " x $4\frac{1}{2}$ ft., size of hoe, 5" x $2\frac{1}{2}$ " x $\frac{1}{8}$ ".....	Each, $2\frac{3}{8}$ Lbs.
385	Tongs, size $\frac{1}{2}$ " x $4\frac{1}{2}$ ft.....	Each, $6\frac{1}{4}$ Lbs.
386	Fire Set complete as shown.....	Per Set, $14\frac{1}{4}$ Lbs.

When ordering give number, quantity and item name

LEETONIA FIRE TOOLS

Send your blue prints and specifications and get our prices on special shapes and sizes in car load and less than car load lots.

Profitable items for distributors of mill, mine and factory supplies.

The above cut shows Leetonia Fire Tools which are made to stand the hard usage that they are subject to when used in Industrial Plants, Steamship Boiler Rooms and on Railroad Locomotives. Each tool is the proper shape to enable users to do their work with the least effort. Painted blue. Sold in any quantity. Wired in bundles. An extra charge will be made when ordered shipped in crates or boxes.

Give number, quantity, item, name, length and diameter when ordering. Made promptly after receipt of order.

NOTE—Flue Brush Handles with or without couplings. Send samples, sketch or blue print and we will quote you our lowest price.

SCALING HAMMERS

This cut represents our Scaling Hammer for removing boiler scale, rust or paint, also used by Contractors and Road Builders to clean cement from used brick. Forged from a special grade of tool steel which meets Navy Specifications. Carefully tempered and painted blue. Approximate length 5½". Cutting edge will not scar the metal and is approximately 1½" wide. Cutting edges at right angle. Packed twelve dozen in a keg or box; less quantities sold.

No. 379 Unhandled Scaling Hammers.....Weight per Dozen, 12 Lbs.

When ordering give number, quantity and item name.

SCALING HAMMERS WITH WOOD HANDLES

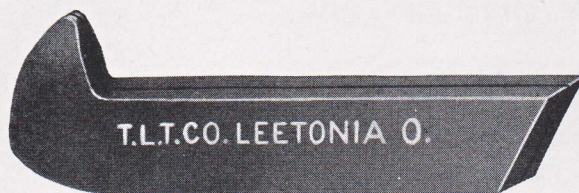

This cut shows our Wood Handle Scaling Hammer. The hammer is described above. Handled with No. 1 grade hickory handles 14" long. Packed 3 dozen in a carton. Less quantities sold.

No. 380. Handled Scaling Hammers.
Weight per Dozen.....15 Lbs.

When ordering give number, quantity and item name.

FORE LOCKS

Split Fore Locks forged from ⅝" x ⅛" mild open hearth steel. Oil finish or can be painted blue. Sold in any quantity.

No. 429	Split Fore Locks—Lengths.....	2½"	3"	3½"	4"
	Weight each, oz.....	1-4/5	2-1/7	2-1/2	2-4/5

When ordering give number, quantity, length and item name.

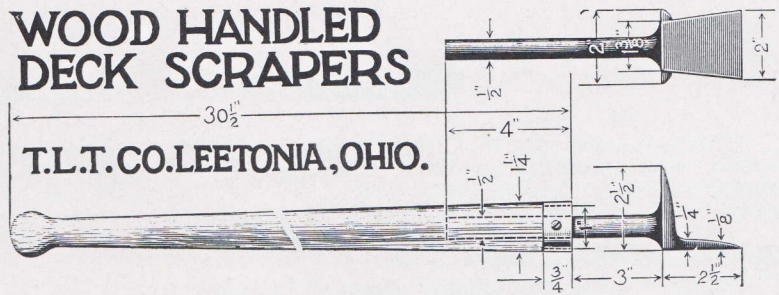

SCRAPERS

This cut shows a Scraper with No. 1 grade hickory handle and metal ferrule. The blade has two scraping edges and is made of steel having a carbon content which meets Navy Specifications and is most suitable to retain a sharp scraping edge. The blade is carefully tempered. The shank is securely riveted on both sides of the blade and cannot work loose. The shank is driven into the handle and fastened with a rivet through the ferrule and shank. Packed 5 dozen in a box or crate. Sold in any quantity.

WOOD HANDLED DECK SCRAPERS

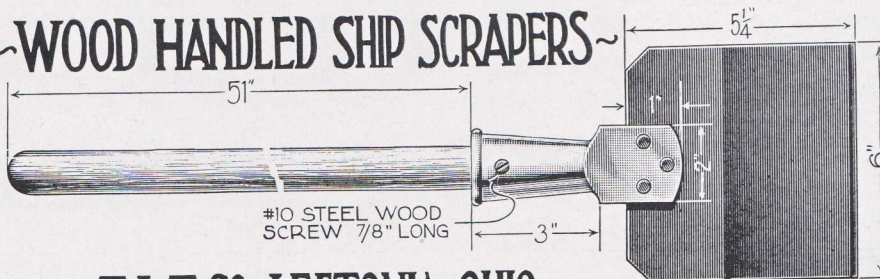

T.L.T.CO.LEETONIA,OHIO.

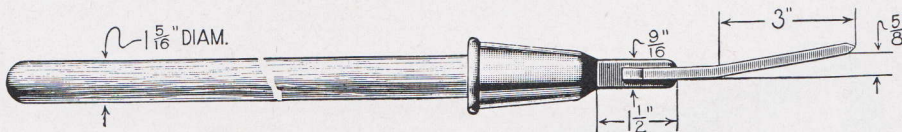

- No. 426A With 30 1/2" Handle, Deck Type, 36" overall Weight Each, 1 lb. 14 oz.
No. 426B With 18 1/2" Handle, Hull Type, 24" overall Weight Each, 1 lb. 8 oz.

When ordering give number, quantity and item name.

WOOD HANDLED SHIP SCRAPERS

T.L.T.CO. LEETONIA,OHIO.

WOOD HANDLED SHIP BOTTOM SCRAPERS

This cut shows our Wood Handled Ship Bottom Scrapers. The handle is No. 1 straight grained hickory or ash. The socket is made of malleable iron. The blade is made of a high grade steel about 7/8 inch thick, which meets Navy specifications. Heat treated, making a blade that will stand severe service and retain a lasting scraping edge. The handle, socket and blade are securely fastened together as shown by illustration.

This scraper will outwear a number of the common kind and be found a very useful tool for scraping barnacles from Ship Bottoms, for use on built up Roofs, cleaning Sidewalks, Slaughter Houses or any Floors where dirt, grease, etc., is hard to remove. Packed 6 in a bundle, blades wrapped in burlap.

- No. 422. Wood Handled Ship Bottom Scrapers..... Weight Each, 4 lb. 4 oz.

When ordering give number, quantity and item name.

HEAVY BLADE SCRAPER

Fifty-two inch No. 1 grade Hickory or Ash Handle, blade is made of a good grade of steel, 5 1/2" long by 4 1/4" wide at scraping edge. The handle and blade are securely fastened together with a rivet through the ferrule, handle and shank. Blade is lacquered. This Scraper is useful as a Ship or Sidewalk Scraper, also for cleaning dirt and grease from floors. Wired 6 in a bundle.

- No. 428. Heavy Blade Scraper..... Weight Each, 3 1/4 Lbs.

When ordering give number, quantity and item name.

The LEETONIA TOOL CO.

SLICER SCRAPERS

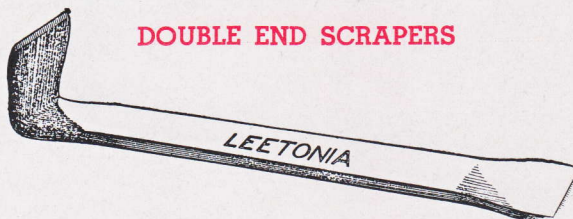

This cut shows our Wood Handle Slicer Scraper, made of $1\frac{1}{4}$ " x $\frac{1}{4}$ " steel, which will retain a sharp cutting edge. Carefully tempered. The handle is No. 1 grade hickory. Handles and Scrapers are easy to assemble and are packed separately to save packing costs and storage room. The standard method of packing is 6 dozen in a box or crate. We will accept orders for less quantities.

No. 427. Slicer Scraper with Wood Handle, length over all 28", length of handle 16", width of scraping edge $2\frac{1}{4}$ ", weight per dozen, 19 lbs.

When ordering give number, quantity and item name.

DOUBLE END SCRAPERS

The above cut illustrates our Double End Scraper. It is an excellent tool to remove rust or paint from wood or metal surfaces. Made of round edge high carbon steel, carefully tempered, oil finished. Packed 12 dozen in a box. Less quantities sold.

No. 392. $10\frac{1}{2}$ " long x $1\frac{1}{4}$ " x $\frac{1}{4}$ " with $1\frac{3}{4}$ " Scraper Ends.....Weight per Dozen, 12 Lbs.

When ordering give number, quantity, length and item name.

This cut illustrates a Scraper for which the constantly increasing demand proves it the most practical to use. Made of fine grain tool steel which meets Navy Specifications. Carefully heat treated. Packed 6 dozen in a carton. Less quantities sold.

No. 393. Scraper 15" long x 1" x $\frac{1}{4}$ " with $1\frac{3}{4}$ " scraper ends. Weight per Dozen.....13 Lbs.

When ordering give number, quantity, length and item name.

GOOSE NECK SCRAPERS

The Goose Neck Scraper shown above for removing rust and paint from wood or metal surfaces has some advantages over other Scrapers. The goose neck end can be used to scrape places that cannot be scraped to advantage with other types of Scrapers. The goose neck end also fits against the palm of the hand which is quite an advantage when scraping with the straight end. This scraper is also very useful in gardens to dig around plants, small shrubbery and removing grass from the edges of sidewalks. Made of round edge high carbon steel which meets Panama Specifications. Carefully tempered. Scraper ends are forged 2 inches wide. Standard package 6 dozen in a box, less quantities sold.

No. 394. Goose Neck Scraper $11\frac{1}{2}$ " x $1\frac{1}{4}$ " x $\frac{1}{4}$ ".....Weight per Dozen, $13\frac{1}{2}$ Lbs.

When ordering give number, quantity and item name.

GENUINE USED FILE SCRAPERS

Made from 14" and 16" used flat mill bastard files. No selection of length. Carefully heat treated. Packed 6 dozen in a box, less quantities sold.

No. 405. Used File Scrapers, Approximate Weight per Dozen, 17 Lbs.

When ordering give number, quantity and item name.

TRIANGULAR SCRAPERS

Our triangular shaped Ship Scraper is 18 inches long overall. It can be used to good advantage to remove thick coating from ship bottoms, decks, etc.

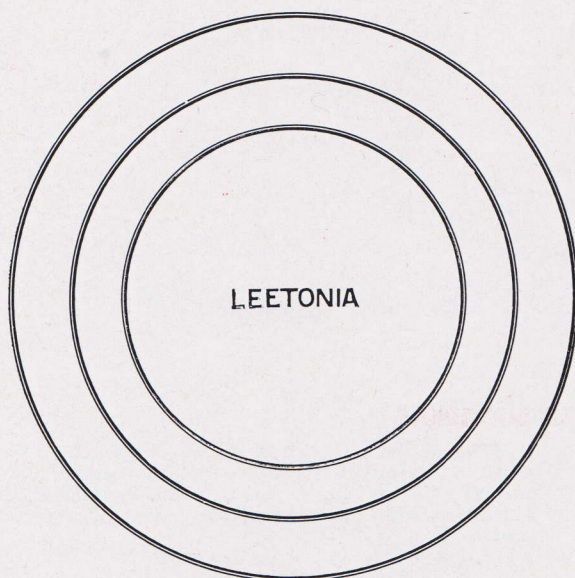

The Blades are made of tool steel, carefully tempered, oil finish. The blade can be quickly taken from the socket for sharpening by removing the nut.

The Socket is made of refined malleable iron.

The Handle is No. 1 grade Hickory, 16½ inches long. Packed in crates, boxes and kegs. Any quantity sold.

No.	Description	Net Weight Each
395	Complete Triangular Scrapers, blade ⅛" x 4¾".....	1 lb. 3 oz.
396	Triangular Blade only, size ⅛" x 4¾".....	4½ oz.
398	Handle, Socket, Nut and Washer.....	15 oz.

When ordering, give number, quantity, item name and size.

SEA ANCHOR HOOPS

Made of ½" round mild open hearth steel, electric welded. Natural finish, painted blue or galvanized. 18 and 24 inch, wired 1 dozen in a bundle, 30 and 36 inch, wired 6 in a bundle.

Number	Outside Diameter	Weight Each
433	18"	3-1/3 lbs.
433	24"	4-1/3 lbs.
433	30"	5-1/2 lbs.
433	36"	6-3/4 lbs.

We can furnish other sizes. Sold in any quantity. When ordering give number, quantity, size, item name and finish.

The LEETONIA TOOL CO.

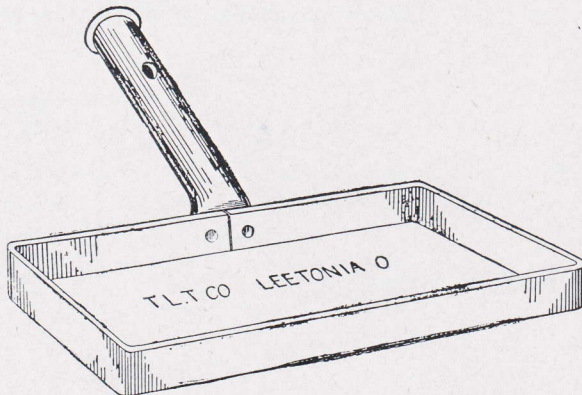

STEEL FOX OR JOINT BREAKING WEDGES

Forged from high carbon steel, with gradual taper from about one-half inch from head end to point. Heat treated at a slight additional charge. Painted blue. Packed in boxes or kegs. Any quantity sold.

Number	Length	Width	Thickness at Head End	Weight Dozen
359	3"	1"	1/4"	1 3/4 Lbs.
359	4"	1"	3/8"	3 1/2 Lbs.

SPECIAL WORK

We solicit your inquiries for Drop Forging, Trip Hammer, Press and Machine Work.

EXTRA CHARGES

When we manufacture a standard article to sell at a certain price; to make it different adds to the cost which naturally has to be paid for; it's better to buy standard goods if they will meet your requirements.

MINE DRILLS AND TOOLS

We manufacture a larger variety of Drills and Tools for use in and around Coal, Clay and Metal Mines than any other Company in America.

We have a Catalog illustrating and describing the above line which we will cheerfully mail to those interested.

OUR AIM: To win your confidence by Service, Quality and Price so that when you are ready to again purchase you will instantly think of "Leetonia."

LEETONIA CORRUGATED STEEL HANDLE WEDGES

These cuts show our various sizes of Handle Wedges. A size for every purpose, at reasonable prices. Needed in every Home, by every Mechanic, Farmer and Industry. Merchants will find it profitable to carry them in stock. Bright aluminum finish for retail trade and for industrial and other large users.

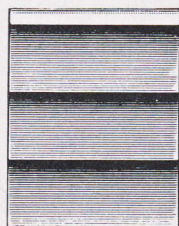

No more loose Axe, Hatchet, Pick, Sledge and Hammer Handles. The Leetonia Corrugated Wedge was the first Corrugated Steel Wedge made. It drives easy because the entering edge is sharp. It makes new and old tools safe to use because, when driven in, it tightens and sticks in the Handle. A slight edge fin may detract from the appearance but helps the wedge stick in the Handle.

NO. 355

No. 355 Wedges— $\frac{1}{4}$ " thick x $1\frac{3}{4}$ " wide x $1\frac{1}{4}$ " long, approximate number in pound 12. Suitable for Axe and other large Handles. This size sold only in 2 lb. boxes, bulk and keg lots; too large for counter display cards.

NO. 356

No. 356 Wedges— $\frac{1}{4}$ " thick x $\frac{7}{8}$ " wide x $1\frac{1}{4}$ " long, approximate number in pound 24. Suitable for Hatchet and similar Handles. Bright plated finish, 2 dozen and counter display card in 2 lb. boxes, bulk or keg lots.

No. 357 Wedges— $\frac{1}{4}$ " thick x $\frac{1}{2}$ " wide x $1\frac{1}{4}$ " long, approximate number in pound 40. Suitable for Pick and Sledge Handles. Bright plated finish, 3 dozen and counter display card in 2 lb. boxes, bulk or keg lots.

No. 420 Wedges— $\frac{3}{16}$ " thick x $\frac{1}{2}$ " wide x $\frac{7}{8}$ " long, approximate number in pound 68. Suitable for regular Hammers and similar Tools. Bright plated finish, 3 dozen and counter display card in 2 lb. boxes, bulk or keg lots.

No. 421 Wedges— $\frac{1}{8}$ " thick x $\frac{3}{8}$ " wide x $\frac{5}{8}$ " long, approximate number in pound 170. Suitable for medium and small Hammers. Bright plated finish, 3 dozen and counter display card, in 2 lb. boxes, bulk or keg lots.

No. 419 Wedge Assortment—approximate number of each size; 4 No. 355, 9 No. 356, 15 No. 357, 38 No. 420, 65 No. 421. This assortment only in 2 lb. boxes. With this assortment we will upon request supply free a counter display card.

The use of sizes given above is obtained from our sales experience. The condition of the Handle determines the best size to use.
